Fire Safety Rules for Charging and Storing E-Bike and E-Scooter Batteries

Lamyai Court Condominium Juristic Person, Hat Yai, Songkhla · Policy LC-FS-04, version 2 · Effective 1 November 2026

1. Purpose and scope

These rules apply to all owners, tenants and staff at Lamyai Court (Towers A and B). They replace version 1 of 15 January 2025, which allowed charging on balconies.

2. Shared Charging Room

Except as allowed in section 4, e-bike and e-scooter charging must take place in the Shared Charging Room, Room B1-07 on basement level 1 next to the Tower B lift lobby. It is open from 06:00 to 23:00 daily and has 16 bays, a heat detector linked to the fire alarm panel and a sprinkler. Security staff unplug any charger still connected after 23:00.

3. How to register a vehicle

1. Fill in form LC-FS-04A at the Juristic Office (Tower A, ground floor).
2. Bring the vehicle and original charger for a battery inspection by the duty technician.
3. Pay the fee of 300 baht per vehicle and receive a bay sticker and access card, valid 12 months.

4. Rules inside units and common areas

- No parking or charging in corridors, stairwells, lift lobbies or on balconies.
- A removable battery of 500 Wh or less may be charged inside a unit between 07:00 and 22:00, only while an adult is present. Batteries above 500 Wh may only be charged in Room B1-07.
- Modified or repaired batteries are not allowed. Vehicles use the service lift only.

Note. Mobility scooters used by residents with a disability are exempt from the in-unit limits, but must still be registered under section 3.

5. Emergencies and breaches

If a battery smokes or swells, leave, close the door, press a fire alarm call point and call security on extension 199. A second breach within 12 months brings a 2,000 baht fine. Contact: Kittiya Somboon, Fire Safety Officer. Approved by Thanya Prasert, Building Manager.
