Internal Memo: Earlier Payroll Lock and New Fees for Late Changes

Teakline Payroll Services Co., Ltd., Chiang Mai · Ref. OPS-MEMO-2026-19 · 12 October 2026

To: All client account officers and payroll processors
From: Orathai Kaewmanee, Head of Payroll Operations (Room 3-07, ext. 307)
Copy: Napat Wongsiri, Client Service Lead
Subject: Monthly lock date, late adjustments and off-cycle runs, effective 1 November 2026

1. Decision

Starting with the November 2026 payroll, the monthly payroll lock in PayDesk moves from the 22nd to the 20th of each month at 17:00. If the 20th falls on a weekend or public holiday, the lock is at 17:00 on the previous working day. The two extra days are for the new bank file checks. Clients were told by letter on 5 October.

2. Late adjustments

A change received after the lock (new joiner, salary change, overtime) can still go into the regular run as a late adjustment if it reaches us no later than 3 working days before the client's pay date. The fee is now 350 baht per employee record changed. Until 31 October 2026 the fee was 250 baht, and changes received in October are still charged at the old rate. Corrections caused by a Teakline error are never charged.

3. Off-cycle runs

Changes received later than 3 working days before the pay date cannot enter the regular run. They are paid in an off-cycle run on a date agreed with the client. The fee is 2,500 baht per run plus 120 baht per payslip in the run. An off-cycle run with more than 40 payslips must be approved by the Head of Payroll Operations before processing.

> **Note.** Final pay for a terminated employee is exempt: each client may have up to 2 off-cycle final-pay runs per calendar month without the 2,500 baht run fee. The 120 baht per payslip still applies.

4. What the account officer does

1. Log the request in PayDesk under "Post-lock change" with the time the client's email arrived.
2. Check the client's pay date and decide whether it is a late adjustment or an off-cycle run.
3. Send the client the fee quote by email within 2 working hours and wait for written approval.
4. Only after approval, assign the change to a processor and add the fee code (LA-350 or OC-2500) to the client's invoice.
