ChillCrate Loan Service: Customer Fact Sheet

Mae Kuang Cold Store Co., Ltd., San Sai, Chiang Mai · Ref. MKC-CS-LF-07, version 3 · Issued 15 September 2026

1. What the service is

ChillCrate is Mae Kuang Cold Store's loan service for insulated, returnable crates with a built-in temperature data logger. It is meant for small customers who collect chilled or frozen goods from our San Sai warehouse in their own vehicles, such as cafés, bakeries, butchers, ice-cream makers and veterinary clinics, and who do not own a refrigerated van. Each crate keeps its contents in range for a stated hold time and records the temperature every 5 minutes.

The service is open to any business with a registered Mae Kuang customer account. Private individuals cannot borrow crates. This version of the fact sheet replaces version 2 of 2 March 2026; the main changes are the new deposit amount, the longer free loan period and the new *Blue Line* size.

2. Crate types

- **Green Line, 32 litres** (chilled, +2 °C to +8 °C): uses two chilled gel packs; hold time 10 hours at an outside temperature of up to 35 °C. Suitable for dairy, fresh meat and cakes.
- **Green Line, 60 litres** (chilled, +2 °C to +8 °C): uses four chilled gel packs; hold time 8 hours.
- **Blue Line, 45 litres** (frozen, −18 °C or colder): new from 1 October 2026; uses three phase-change plates frozen at −25 °C; hold time 6 hours. Suitable for ice cream, frozen seafood and frozen dough.

Gel packs and plates are conditioned by our warehouse team and are inserted before the crate is handed to you. Do not add your own ice, dry ice or gel packs: they change the hold time and can damage the logger.

3. Prices and deposit

- Loan fee: 90 baht per crate per loan for Green Line crates and 140 baht for the Blue Line crate.
- Free loan period: 48 hours from collection, counted from the time printed on the hand-over slip. Until 30 September 2026 the free period was 24 hours.
- Late return: 60 baht per crate for each started day after the free period.
- Deposit: 1,500 baht per crate, paid by bank transfer or card at the Customer Desk. Until 30 September 2026 the deposit was 1,200 baht per crate; crates already on loan under the old deposit keep it until they are returned.
- Lost or unreturned crate: if a crate has not come back 14 days after collection, it is treated as lost and the deposit is kept in full. A replacement logger alone is charged at 2,300 baht if only the logger is missing or broken.

Note. Customers on a monthly storage contract of 20 pallet positions or more pay no loan fee for up to 10 crates per month. Late-return charges and deposits still apply to them.

Fictional document created for testing a question-answering system. All names, figures and organisations are invented.

4. How to borrow a crate

1. Book on the Mae Kuang customer portal under *Services* > *ChillCrate*, or by phone at 053 104 772, at least 24 hours before collection. Blue Line crates must be booked 48 hours ahead, because the plates need a full freezing cycle.
2. Give the product type, the target temperature range and the expected travel time. Our team will refuse a booking if the travel time is longer than the crate's hold time.
3. Come to Loading Bay 3 (chilled) or Loading Bay 5 (frozen) at the booked time, between 06:00 and 18:00, Monday to Saturday. Bring your customer account number and pay the deposit at the Customer Desk first.
4. The bay checker loads your goods, closes the crate, starts the logger and gives you a hand-over slip with the crate number, seal number and start time.
5. Keep the crate closed and out of direct sun. Do not break the seal until you reach your destination.

5. Returning a crate

Return crates empty, with all gel packs or plates inside, to the Returns Counter next to Loading Bay 1, Monday to Saturday from 08:00 to 17:00. Crates cannot be returned on Sundays or public holidays; the late-return charge is not added for those days. Remove all labels you added. A crate returned with food residue is charged a cleaning fee of 150 baht.

At the counter, staff read the logger and give you a printed temperature summary. The full record (every 5-minute reading) is e-mailed to the account's registered address within one working day. Mae Kuang keeps records for 12 months.

6. Deposit refunds

Deposit refunds are handled by the Customer Accounts team, led by Ms Kanyarat Inthawong, Customer Service Lead. The deposit, less any late-return, cleaning or logger charges, is paid back to the original card or bank account within 5 working days of the return. Questions about a refund go to accounts@maekuangcold.example or extension 214.

7. If the temperature went out of range

If the printed summary shows an excursion (any reading outside the crate's range for more than 15 minutes in a row; a shorter rise while unloading is not counted), the counter staff mark the record and send it to Mr Theerawat Moonkham, Quality and Temperature Assurance Officer. He decides whether the cause was the crate or the way it was used, and replies within 2 working days (extension 238, qa@maekuangcold.example). The decision whether the goods themselves can still be sold or used remains the customer's own responsibility; Mae Kuang does not give advice on product safety.

- If the cause was the crate (for example a faulty seal or a logger fault), the loan fee is refunded and the crate is taken out of service for repair.
- If the travel time exceeded the stated hold time, or the crate was left open or in the sun, no fee is refunded.
