# Internal Memo: Parent Collection of Full Glass Term-Break Milk Packs, October 2026

Ping Lowland School Meals Partnership, Saraphi and Hang Dong, Chiang Mai · Ref. PLSMP-MEMO-2026-11 · 21 September 2026

**To:** Principals and school nutrition coordinators of the 14 partner schools
**From:** Kanokwan Chaiyanet, Programme Manager, Full Glass Milk Programme (Partnership office, Room 203, Saraphi Learning Centre, tel. 053 447 210)
**Copy:** Thanakorn Srisupan, Supply Coordinator; Pimchanok Daoruang, Partnership Dietitian; Arunee Kongchai, Finance Officer
**Subject:** Change from take-home bags to parent collection for the second-semester break pack

## 1. The decision

At its meeting of 16 September 2026, the Partnership Steering Group decided that the Full Glass Term-Break Milk Packs for the coming second-semester break will no longer be carried home by the children on the last day of school. Instead, each pack will be collected at the school by a parent, guardian or authorised adult on one of two collection days.

The reason for the change is the experience of the long break in March 2026. Packs were then sent home in cloth bags with each child on the last day of term. Schools reported that the bags were too heavy for the younger children, that 312 cartons arrived at homes crushed or leaking, and that a number of packs were left in classrooms, on school buses and at the Hang Dong songthaew stop. Parent collection was tested at Ban Nong Phueng School in March and almost no cartons were lost or damaged there.

## 2. Break dates and pack contents

The partner schools close after lessons on Friday 9 October 2026 and reopen on Monday 2 November 2026. The break therefore covers 15 weekdays, from Monday 12 October to Friday 30 October. The Full Glass Programme provides one carton of milk for each weekday on which a child would normally have received milk at school.

- **Standard pack:** 15 cartons of 200 ml UHT plain milk, packed in one sealed cardboard box with the pupil's name label. A full box weighs about 3.4 kg.
- **Soy pack:** 15 cartons of 180 ml unsweetened UHT soy milk, for pupils who hold a valid soy-milk card (see section 6).
- **Previous practice:** for the long break in March 2026, each pupil received 40 cartons, delivered in two bags of 20. That arrangement applied to the long break only and is not repeated in October.

Every pupil from Anuban 1 to Prathom 6 who is on a partner school's register on Wednesday 30 September 2026 is entitled to one pack. Pupils in Mathayom classes at the two extended-opportunity schools are not part of the Full Glass Programme and do not receive a pack. School nutrition coordinators must send their final pupil count to the Partnership office by 16:00 on Thursday 1 October 2026, using the green count form in the shared programme folder.

Fictional document created for testing a question-answering system. All names, figures and organisations are invented.

**Note.** Packs are for the pupil's own use during the break. Schools must not open boxes to share cartons between pupils, to give milk to staff, or to use milk for cooking classes.

## 3. Collection days and opening hours

Each school opens a collection point on two days only:

- Wednesday 7 October 2026, from 14:30 to 17:30;
- Thursday 8 October 2026, from 14:30 to 17:30.

The collection point is the school hall, or the canteen at schools without a hall. Each collection point needs at least two staff members during opening hours: one to check the collector against the list, and one to hand over the boxes.

## 4. Who may collect a pack

A pack may be handed over only to one of the following people:

- a parent or guardian whose name appears on the pupil's school record, on showing a Thai ID card, passport or pink card;
- any other adult aged 18 or over who brings the pupil's green collection slip, signed by a parent or guardian, together with his or her own ID;
- a pupil in Prathom 5 or Prathom 6 who brings his or her own signed green collection slip. These pupils may collect their own pack only, never a pack for a brother, sister or classmate.

Pupils in Anuban 1 to Prathom 4 may not collect any pack, even with a signed slip. Class teachers will send the green slips home with the pupils on Friday 2 October. A lost slip can be replaced by the class teacher on the collection days.

## 5. What the school does

### 5.1 Delivery and storage

Huai Hong Dairy Cooperative will deliver all packs to the partner schools on Monday 5 October 2026, between 07:00 and 11:00. The school nutrition coordinator, or a teacher named by the principal, must be present to receive the delivery.

1. Count the boxes against the delivery note before the driver leaves, and write any shortfall on the note.
2. Check each box for dents, wet patches or leaks. Put damaged boxes aside and do not hand them out.
3. Store the boxes in a locked, dry room out of direct sunlight, on pallets or shelves, never directly on the floor.

Shortfalls and damaged boxes must be reported to Thanakorn Srisupan, Supply Coordinator, by 12:00 on Tuesday 6 October 2026, by telephone (081 902 6614) or through the Full Glass LINE group. He arranges replacement boxes with the cooperative, which will deliver them by 09:00 on Wednesday 7 October. Reports received after 12:00 on 6 October cannot be replaced before the collection days.

Fictional document created for testing a question-answering system. All names, figures and organisations are invented.

### 5.2 On the collection days

1. Ask for the pupil's name and class and check the collector's ID or green slip under section 4.
2. Find the box and check that the name label matches the pupil.
3. Ask the collector to sign the collection list next to the pupil's name. Keep the green slip with the list.
4. Hand over the box. Do not hand over a box to anyone who refuses to sign.

## 6. Special cases

### 6.1 Soy-milk cards

Pupils who cannot drink cow's milk receive a soy pack if they hold a soy-milk card approved by the Partnership Dietitian, Pimchanok Daoruang. Cards approved for the first semester remain valid. New requests, with a note from a doctor or health-centre nurse, had to reach the dietitian by Friday 25 September 2026 to be included in the October packs. Requests received after that date are processed for the next break only; until then, the pupil receives a standard pack, and the parent may choose not to collect it.

### 6.2 Pupils who enrol late

Pupils who join a partner school between Thursday 1 October and Friday 9 October 2026 are not in the main delivery. Each of them receives a reduced pack of 8 cartons of 200 ml UHT plain milk, which the school orders from Thanakorn Srisupan on the day the pupil enrols. Reduced packs are collected in the same way as standard packs.

### 6.3 Pupils who are unwell or away

If no one can come on 7 or 8 October because the pupil is in hospital or the family is away, a parent may ask the class teacher to keep the pack. The school then holds it until Friday 9 October at 12:00, and a parent or authorised adult may collect it from the school office in that time.

## 7. Uncollected packs and reporting

Packs still at school after 12:00 on Friday 9 October are uncollected packs. The school nutrition coordinator counts them and e-mails the number to the Partnership office by 16:00 the same day. Only the Programme Manager, Kanokwan Chaiyanet, may decide what happens to uncollected packs: she may let a school keep them for the first week of the new semester or arrange for them to go to the Saraphi district child development centres. Schools must not give uncollected packs to other families on their own initiative.

By Friday 16 October 2026, each school sends the signed collection list and the green slips to Arunee Kongchai, Finance Officer, who reconciles the number of packs delivered, collected and left over before the cooperative's invoice is paid.

Questions about this memo: fullglass@pinglowland-meals.org, or the coordinators' online meeting on Monday 28 September 2026 at 15:00.
