Card Holds and Pre-Authorisation Rules for Sornsin Wayfarer Credit Cards

Sornsin Bank · Card Services Policy CSP-2026-07, version 3.1 · Issued 12 October 2026 · Effective 1 November 2026

1. Purpose and scope

This policy explains when Sornsin Bank places a temporary hold on a Sornsin Wayfarer credit card, how large it may be, how long it stays and how to have it released early. It applies to all personal Sornsin Wayfarer Classic, Gold and Signature cards, including supplementary cards linked to them. It does not apply to Sornsin corporate cards.

Version 3.1 replaces version 3.0 of 1 March 2025.

2. What a hold is

- **Pre-authorisation hold:** an amount a merchant reserves on the card before the final price is known. It is not charged, but it reduces the available credit.
- **Final settlement:** the actual amount the merchant charges. When the settlement arrives, the matching hold is removed and only the settled amount appears on the statement.

3. Maximum hold amounts by merchant type

Sornsin Bank declines pre-authorisation requests above these limits:

- **Fuel pumps (pay-at-pump):** up to 2,000 baht per transaction. Until 31 October 2026 the limit was 1,500 baht. Fuel paid at the station counter is not a pre-authorisation and has no hold.
- **Electric vehicle charging stations:** up to 600 baht per charging session.
- **Hotels and serviced apartments:** the room rate for the booked nights plus up to 20 % of that total for incidentals. The full hold is capped at 15,000 baht for Classic and Gold cards and at 30,000 baht for Signature cards.
- **Car and motorcycle rental:** up to 25,000 baht for a car and up to 5,000 baht for a motorcycle or scooter, on all card tiers.
- **Restaurants and bars:** the bill amount plus up to 15 % to allow for a tip added after the card is presented.

> **Note.** The hotel margin is calculated on the room total only: 3 nights at 2,000 baht allow a hold of at most 7,200 baht.

4. Automatic release periods

If no final settlement arrives, Sornsin Bank removes the hold automatically at the end of the release period, counted in calendar days from the date the hold was placed:

Fictional document created for testing a question-answering system. All names, figures and organisations are invented.

- Domestic holds in Thai baht at fuel pumps, EV chargers, restaurants and other merchants: 7 calendar days.
- Domestic hotel and rental holds: 21 calendar days.
- Foreign-currency holds of any merchant type: 14 calendar days. Under version 3.0 this period was 30 days.

A settlement that arrives after release is posted as a normal purchase.

5. Effect on available credit, interest and fees

A hold reduces the available credit by the held amount but is never treated as a purchase. No interest is charged on a hold and a hold never appears on the monthly statement.

The over-limit fee is 300 baht per statement cycle in which the settled balance exceeds the credit limit. The fee is not charged if the limit is exceeded only because a hold is larger than the merchant's final settlement. If the final settled amounts themselves take the balance over the limit, the fee applies as normal.

6. Requesting early release of a hold

When a merchant has cancelled a booking or charged less than the held amount, the cardholder may ask the bank to release the hold before the automatic release period ends:

1. Ask the merchant for a written cancellation or release confirmation that shows the merchant name, date and amount.
2. Open the Sornsin app, go to Cards, then Pending Holds, select the hold and tap Request Release. Upload the merchant confirmation. Cardholders without the app can call Card Services on 0 2118 4400, then email the confirmation to holds@sornsin-bank.example.
3. The bank checks the confirmation and releases the hold within 2 business days. Requests from Signature cardholders received before 15:00 on a business day are released on the same day.

Without a merchant confirmation the bank cannot release a hold early.

7. Supplementary cards

Holds on supplementary cards reduce the shared credit limit of the primary account. From 1 November 2026 a supplementary cardholder may request early release of a hold placed on their own card number, provided they have registered their own profile in the Sornsin app. They may not request release of holds on the primary card or on other supplementary cards; those requests must come from the primary cardholder, who may request release for any card on the account.

8. Responsibilities and complaints

Krisada Phonmanee, Head of Card Authorisations, owns this policy and reviews the hold limits every 12 months. A cardholder who disagrees with a decision under this policy may complain to the Sornsin Bank Card Complaints Unit within 60 days of the decision. The unit replies within 15 business days.
