Customer-Supplied Parts Policy

Torquewell Auto Service, Udon Thani · Ref. TW-POL-07, version 3 · Effective 1 November 2026

1. Purpose and scope

This policy explains when Torquewell Auto Service, 112 Pho Si Road, Udon Thani, will fit parts that customers buy elsewhere. It covers cars and pickups up to 3.5 tonnes and replaces version 2 of 1 March 2025. The policy is owned by our Service Manager, Siriporn Kaewmala; on the workshop floor, the Workshop Foreman, Thawatchai Inthasan, makes the final decision on whether a part is safe to fit.

2. Parts we accept and parts we refuse

We accept new parts in original, unopened packaging, such as filters, wiper blades, bulbs, spark plugs, brake pads and discs, shock absorbers and batteries. Batteries must have been manufactured no more than 6 months before the fitting date. Tyres are accepted only if their date code shows they were made within the last 3 years.

We do not fit: used, rebuilt or second-hand parts of any kind; airbag modules and seatbelt pretensioners; engine oil or brake fluid from opened containers; and any part supplied without a purchase receipt or tax invoice.

3. How to have your own parts fitted

1. Tell us at booking, by phone or LINE, at least 2 working days before your visit, and list each part with its part number.
2. Bring the parts in their original packaging, together with the receipt.
3. A technician inspects the parts at reception and checks that they match your vehicle, then you sign Form CSP-2, which confirms that the part is your responsibility and lists the agreed work.

Undeclared parts are accepted only if the service advisor confirms that the job can still be finished the same day; otherwise the job is rebooked.

4. Charges

- Handling fee: 150 baht for each part line on Form CSP-2, up to a maximum of 600 baht per visit. Fleet customers with a signed account agreement do not pay it.
- Labour: 850 baht per hour (780 baht until 31 October 2026).
- Wrong or faulty part found after work starts: we refit your original part where possible and charge the labour done.

5. Warranty and removed parts

Our labour on customer-supplied parts is guaranteed for 30 days; the part itself is covered only by its seller. (Parts we supply carry 6 months or 10,000 km.) Old parts we remove are kept for 7 days for you to collect, then sent to a licensed recycler. Old batteries are kept for 3 days only.

Fictional document created for testing a question-answering system. All names, figures and organisations are invented.
